How We Measure Quality-of-Care

This Skilled Nursing Facility Provider Profile was created to help you select a local center with a history of success serving patients with conditions similar to yours. This profile includes information about the quality, value, and clinical services delivered at each center. We utilized Medicare Star Ratings (available at <https://data.medicare.gov/>), historic Medicare claims data for patients served at each center, and information reported by each center to understand the capabilities and services available.

Quality Information Highlighted

Although this profile highlights your local options, understanding a center's performance compared to national practices can be a helpful way of assessing quality.

Category	Fair	Good	Excellent
Medicare Star Ratings	1-2 Star Overall Rating	3 Star Overall Rating	4-5 Star Overall Rating
Readmission Rating	The center falls equal to or greater than 26.7% of short stay residents who were re-hospitalized after nursing home admission	The center falls equal to or greater than 24.7% – 25.7% of short stay residents who were re-hospitalized after nursing home admission	The center falls equal to or greater than 23.7% of short stay residents who were re-hospitalized after nursing home admission
Data gathered by on-site Evaluation verifies that centers have an enhanced clinical program Specialty Clinical Programs specialist physician oversight for these service areas, indicating an increased focus and level of service for specific conditions.
