## How We Measure Quality-of-Care

*This Skilled Nursing Facility Provider Profile was created to help you select a local center with a history of success serving patients with conditions similar to yours. This profile includes information about the quality, value, and clinical services delivered at each center. We utilized Medicare Star Ratings (available at <https://data.medicare.gov/>), historic Medicare claims data for patients served at each center, and information reported by each center to understand the capabilities and services available.*

## Quality Information Highlighted

*Although this profile highlights your local options, understanding a center's performance compared to national practices can be a helpful way of assessing quality.*

| Category  | Fair   | Good  | Excellent   |
|---|--|---|---|
| Medicare Star Ratings   | 1-2 Star Overall Rating  | 3 Star Overall Rating   | 4-5 Star Overall Rating   |
| Readmission Rating  | The center falls equal to or greater than 26.7% of short stay residents who were re-hospitalized after nursing home admission. | The center falls between 24.7- 25.7% of short stay residents who were re-hospitalized after nursing home admission. | The center falls equal to or below 23.7% of short stay residents who were re-hospitalized after nursing home admission. |
| Data gathered by on-site Evaluation verifies that centers have an enhanced clinical program Specialty Clinical Programs specialist physician oversight for these service areas, indicating an increased focus and level of service for specific conditions. |  |   |   |

## Sources of Information

*Medicare health insurance claims data - Centers for Medicare and Medicaid Services Nursing Home Compare Quality Rating System - SNF Partnership Evaluations, completed by the rehabilitation centers.*

## Questions?

*If you or your family members have questions regarding the selection of a rehabilitation center, please speak to your Patient Navigator, Case Manager, Social Worker, Doctor, or another member of your care team.*
